Extracurricular Activities

- 2015-Present LSU Student-Run Homeless Clinic
- Work with a team of student doctors to help diagnose and treat various acute and chronic disease states within the homeless population at New Orleans Mission
 - Take charge of the clinic as team leader, organize team members and ensure the clinic runs smoothly
- 2015-2016 Co-Chair, Camp Tiger Food Committee
- Ran a team of 20 members to help organize daily meals for children with disabilities at LSUHC's student-run Camp Tiger
 - Coordinated with and solicited donations from local New Orleans restaurants and grocers

- 2015 Anatomy Tutoring
- Worked one on one with other students in anatomy lab teaching various anatomical relationships to help them excel in the course
- 2014-2015 Memorial Hospital South Bend, NICU
- Attended to the needs of families in the NICU including comforting them at bedside and playing with siblings

Work Experience

- 2014 Counselor, Camp Sweeney, Gainesville, TX
- Oversaw diabetic campers in their daily activities at camp
 - Ensured stable blood sugar levels and proper insulin administration in campers
 - Encouraged and helped campers form healthy habits essential for diabetic control
- 2012-2015 Supervisor, Rolfs Sports Recreation Center, Notre Dame, IN
- Ensured patient safety and attended to any emergency situations at the student recreational facility

Career Development

- 2017-Present Louisiana Dermatological Society
- Attended case conferences to help develop my understanding and knowledge of dermatology
 - Work with residents to write and present case reports for Louisiana dermatologists
- 2016 AHEC Rural Medicine Elective-General Surgery
- Helped underserved populations in southeast Louisiana as a student working under a team of residents and attending physicians
 - Achieved a better understanding of the fields of general surgery, surgical oncology, and colorectal surgery and how they contribute to rural medicine
- 2013 Developmental Disabilities Elective, Drumbeat School, London, UK
- Worked with autistic children in a classroom setting helping them to develop language and skills for adjusting to the world around them
- 2013 Preceptorship in Gynecologic Oncology at South Miami Hospital
- Learned steps for the diagnosis, treatment, and recovery for patients with gynecologic cancers
 - Learned techniques important for having difficult conversations with cancer patients
